Danielle,

Attached files are copies of the worksheets I told you about. Both were completed earlier this week.

I've not been back to Midland since the last February.

Is your crew still planning to be at the Site area for several days beginning 6/30? If yes, I can meet you there during those days.

FYI, Mavin Benton (214.665.3190) is the EPA attorney assigned to this Site.

Bob Werner
Enforcement Officer
